## SUPERVISED FAMILY TIME & SAFE EXCHANGES

## CareHouse Services

CareHouse Family Time & Safe Exchange Program offers a child-friendly, safe, and welcoming environment which provides an opportunity for families to participate in a variety of supportive services. These include both in-person and virtual supervised family time, monitored sessions, and safe exchanges. All services are facilitated by one of our dedicated CareHouse Team. Each service is designed to nurture parent-child relationships while prioritizing safety and emotional well-being of every family member.

## Safety and Support

A trained Family Time Specialist is present at all times to observe and factually document parent-child interactions and intervening only when necessary to ensure the safety and well-being of all participants. Additionally, a member of the CareHouse Team is there to provide support and help ensure peaceful transitions during safe exchanges. To maintain a safe and secure environment, arrival and departure times are carefully staggered by 15-minute intervals to prevent contact between parties.

## Setting Up Services

1. **Apply:** All parties must complete a CareHouse Application packet and include any court orders, if applicable.
2. **Phone Intake:** Once all applications have been received, **separate phone intakes** will be scheduled with each party.
3. **Scheduling:** Please allow **7–10 business days** after intakes for scheduling. The schedule will be based on everyone's availability, as well as CareHouse scheduling capacity. After school and evening appointments are limited.
